Peevey, Brian Prusnek, advisor to Cmmr. Kennedy, and David Gamson, advisor to Cmmr. Brown, in three separate meetings in San Francisco. A03-06-040

Southern California Gas Company (U 904-G), in compliance with Resolution G-3334 for a System of Firm, Tradable Receipt Point Capacity Rights and related provisions.

Summary: On January 14, 2004, Thomas Beach of Corssborder Energy, representing Watson Cogeneration Company (Watson), participated in an all-party meeting with Cmmr. Kennedy in San Francisco. Also present was Brian Prusnek, advisor to Cmmr. Kennedy. Beach commented that most parties appear to agree that there should be a system of firm tradable capacity rights on the gas system in southern California, and that implementing the Gas Industry Restructuring Program (GIR) is by far the fastest and easiest way to that end. Beach explained that if the Commission decides to vacate D01-12-018 and to start over to develop a system of firm tradable rights, it is going to take a long time to resolve all of the ancillary issues that have led parties to oppose implementation of the GIR. Beach stated that Watson strongly supports the proposed decision. Beach also commented that Pacific Gas and Electric Company's (PG&E) Gas Accord structure has performed well in northern California and that PG&E city-gate market provides a good procurement option for low-load-factor end use customers that choose not to hold receipt point capacity (and not to pay the associated demand charges). Finally, Beach noted that Southern California Edison Company (Edison) can gain bidding rights in the GIR open season if the power plants with whom Edison has tolling agreement simply assign their rights to Edison.

Summary: AUGMENTATION REQUIRED. On January 14, 2004, Dr. Michael Alexander, Manager, Natural Gas Regulation, Southern California Edison Company (SCE), met with Cmmr. Kennedy in the all-party meeting. Also present was Brian Prusnek, advisor to Cmmr. Kennedy, and Trina Horner, advisor to Cmmr. Lynch. Dr. Alexander stated that the Comprehensive Settlement Agreement (CSA) was founded on sound economic principles, but that the implementation details were important and stale, implementing the CSA as written now, without consideration for changed circumstances would be the equivalent of giving a patient the medicine for last year's illness instead of for the current problem. Dr. Alexander also pointed out that given the lead time for filing an application, implementing the CSA now would not result in significant experience in the design of a successor system. Dr. Alexander also pointed out that the current market lacks the liquidity which was a key determinant in the underlying economic theory of the CSA, intended to smooth over the transition costs.

Summary: On January 14, 2004, Rick Morrow, Vice President Customer Service Major Market, Southern California Gas Company (SoCalGas), attended an all meeting with Cmmr. Kennedy, in Los Angeles. Also present were Brian Prusnek, advisor to Cmmr. Kennedy, Belinda Gatti, advisor to Cmmr. Brown, Trina Horner, advisor to Cmmr. Lynch, Manuel Ramirez, advisor to Cmmr. Wood, and Dave Gilmore, Regulatory Attorney, Jeff Hartman, Director, Energy Markets and Capacity Products, Steve Watson, Capacity Products Staff Manager, Rodger Schwecke, Pipeline Products Manager, Lad Lorenz, Vice President, Regulatory Affairs, and Leslie Katz, Regional Vice President, Regulatory Affairs, for SoCalGas. Morrow stated that given the scope of the implementation proceeding SoCalGas believes that the proposed decision accurately reflected the scope and evidence of that proceeding. However, Morrow stated that the Comprehensive Settlement Agreement (CSA) has lost its critical mass of customer and supplier support and also does not adequately meet the needs resulting from the changed market conditions. Morrow recommended that the Commission should address firm access rights in a separate application that would allow SoCalGas and San Diego Gas & Electric Company to propose a longer-term system of firm tradable rights without the baggage that the CSA carries.

Summary: On January 16, 2004, Erik Jacobson, Chief, Regulatory Relations, Pacific Gas & Electric Company (PG&E), met with Aaron Johnson, advisor to Cmmr. Lynch, in San Francisco. Written material (attached to the notice) was used. Jacobson stated that PG&E strongly supports the draft decision of ALJ Wong that approves the interest amount of \$13.3 million agreed to by the Department of Water Resources and PG&E. Jacobson explained PG&E's opposition to Cmmr. Wood's alternate. Jacobson also explained the importance of having Cmmr. Lynch's revised generation procurement alternate embrace the policy that ESPs and Community Aggregators should be subject to the same resource adequacy standards as IOUs.

---------	------------	------------------------------------------------------------------------------------------------------------------------------------------------

Summary: **LATE FILED.** On January 7, 2004, Noel A. Obiora, attorney for the Office of Ratepayer Advocates (ORA), met with Cmmrs. Peevey, Brown, Lynch, Wood, and Kennedy in San Francisco. Also present were Jan Reid, Analyst, Scott Cauchois, Manager, and Scott Logan, Analyst, for the ORA. Reid objected to the Commission recognizing debt equivalence in the procurement proceeding and state that it was more appropriately a cost of capital issue. Cauchois stated that the ISO should have the responsibility for implementing resource adequacy requirements for non-utility load serving entities, particularly Direct Access customers and Community Aggregators. Cauchois explained that this would eliminate the need for the imposing complex surcharge mechanisms that The Utility Reform Network proposed for exit customers.

Brown, and Julie Fitch, advisor to Pres. Peevey, in two separate meetings in San Francisco. Brian Prusnek, advisor to Cmmr. Kennedy also attended the meeting with Julie Fitch. Also present was Billy Blattner, CPUC Relations Manager, SDG&E. Lorenz stated that the decisions misunderstand the composition of SDG&E's risk management committee, resulting in unnecessary orders affecting the membership and establishing a duplicative audit. Lorenz also noted that the permanent affiliate transaction ban will preclude SDG&E from bringing the widest range of procurement opportunities before the Commission; at the very least, the Commission should allow pre-approval. Lorenz added that without recognition of debt equivalency, the Otay Mesa project cannot go forward. Blattner offered SDG&E's resource adequacy proposal as a reasonable framework that would prevent gaming, preserve the Commission's jurisdiction, and assure resources.

Summary: On January 21, 2004, Hallie Yacknin, Assistant General Counsel for the Director, Office of Ratepayer Advocates (ORA), met with Peter Arth, advisor to Pres. Peevey, in San Francisco. ORA asked that the office consider removing footnotes in the revised alternate decision directing the General Counsel to investigate whether statements made by ORA constitute violations of Rule 1. ORA stated that the misstatement that D98-10-026 was effective 1/1/99 was an inadvertent error, but that it did not mislead the Commission because the pertinent issue was the effective date of suspension of the sharing requirement, the elimination of previously existent PBOP z-factor cost recovery, and depreciation review, which was in fact 1/1/99.
